

The map displays the difference in the number of days with precipitation exceeding 1 mm between the 1980-1999 and 2000-2019 periods. The color scale ranges from -2 (dark blue) to 5 (dark red). The map shows a clear trend of decreasing precipitation days in the tropics and increasing days in the mid-latitudes, particularly in the North Atlantic and North Pacific.

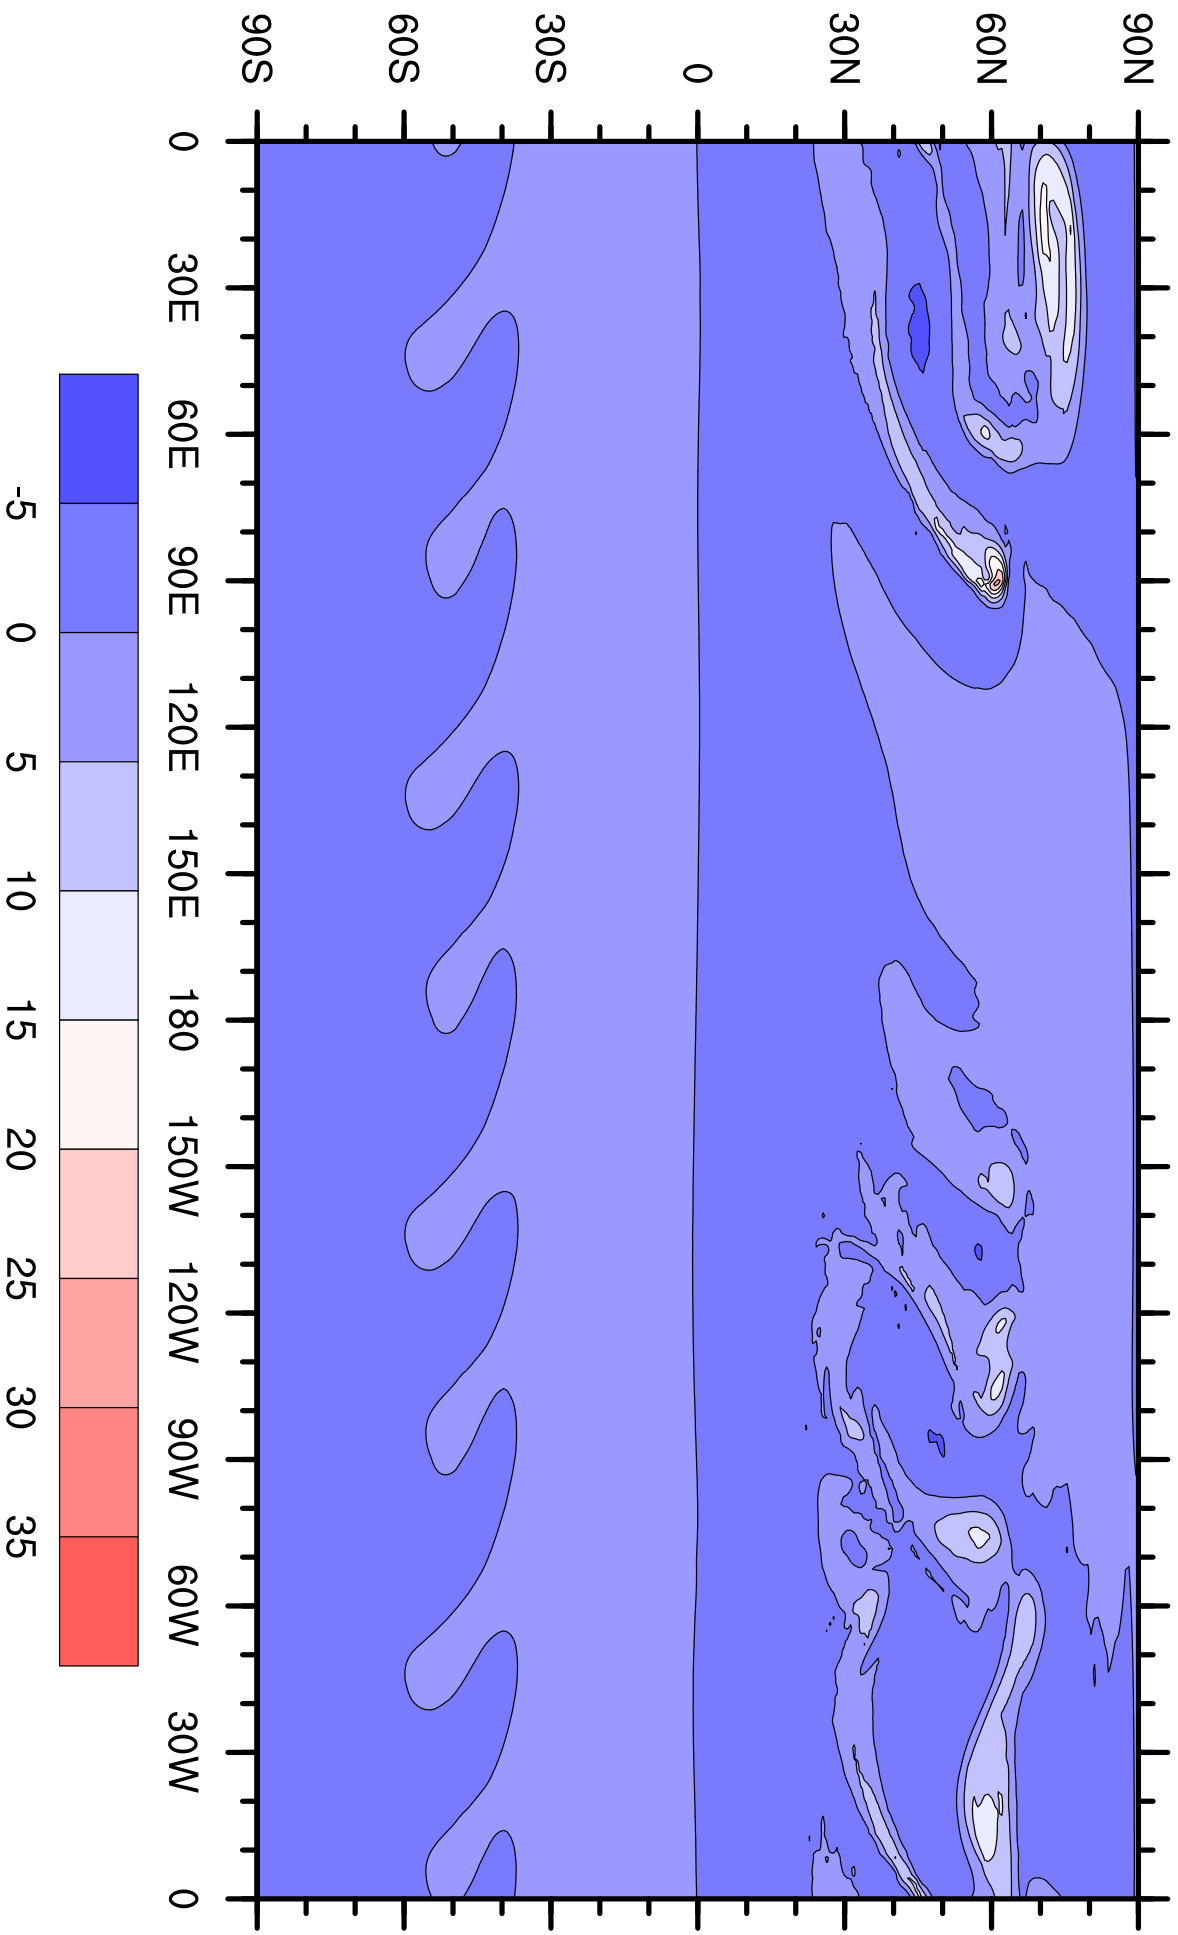

HOMME DG 0.90° (Day 5)

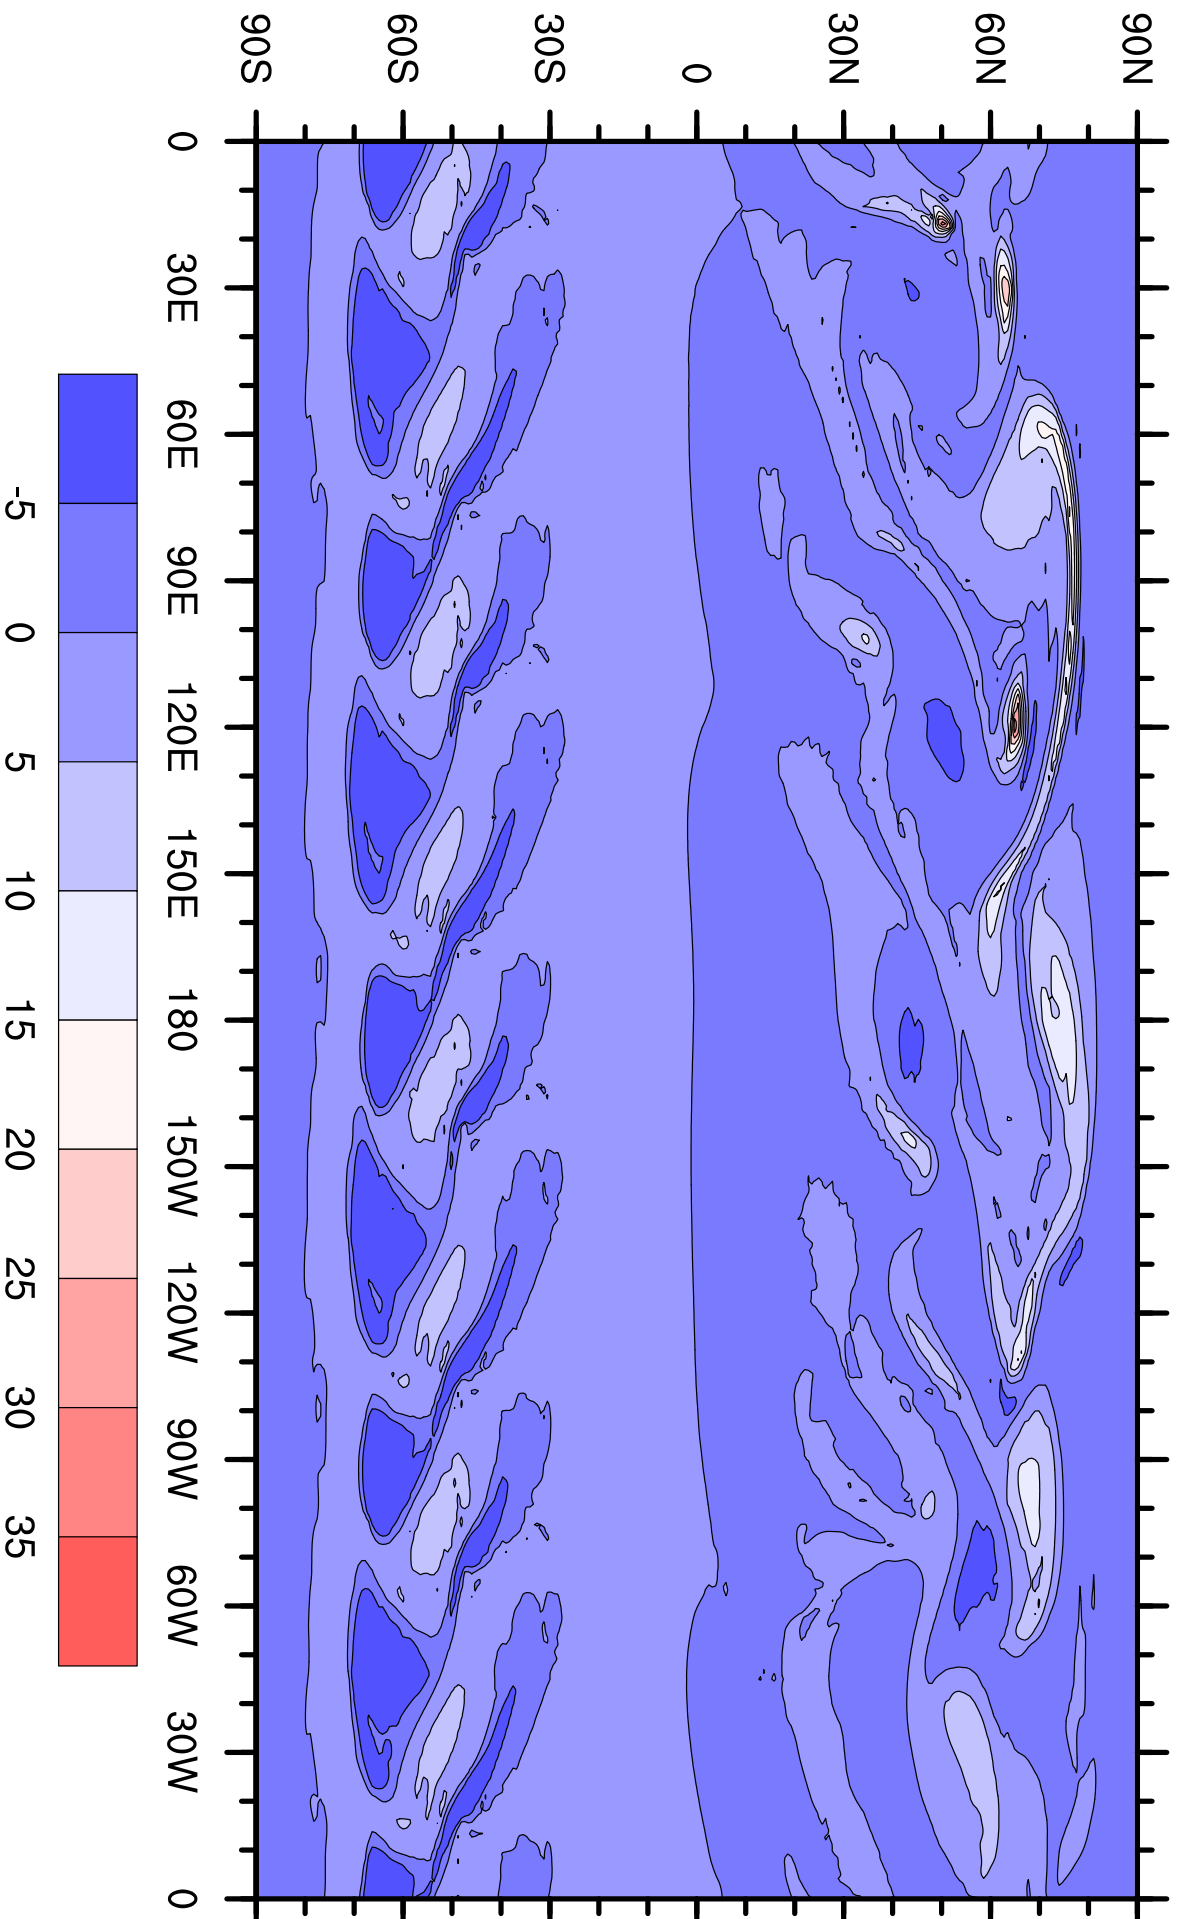

HOMME DG 0.90° (Day 10)

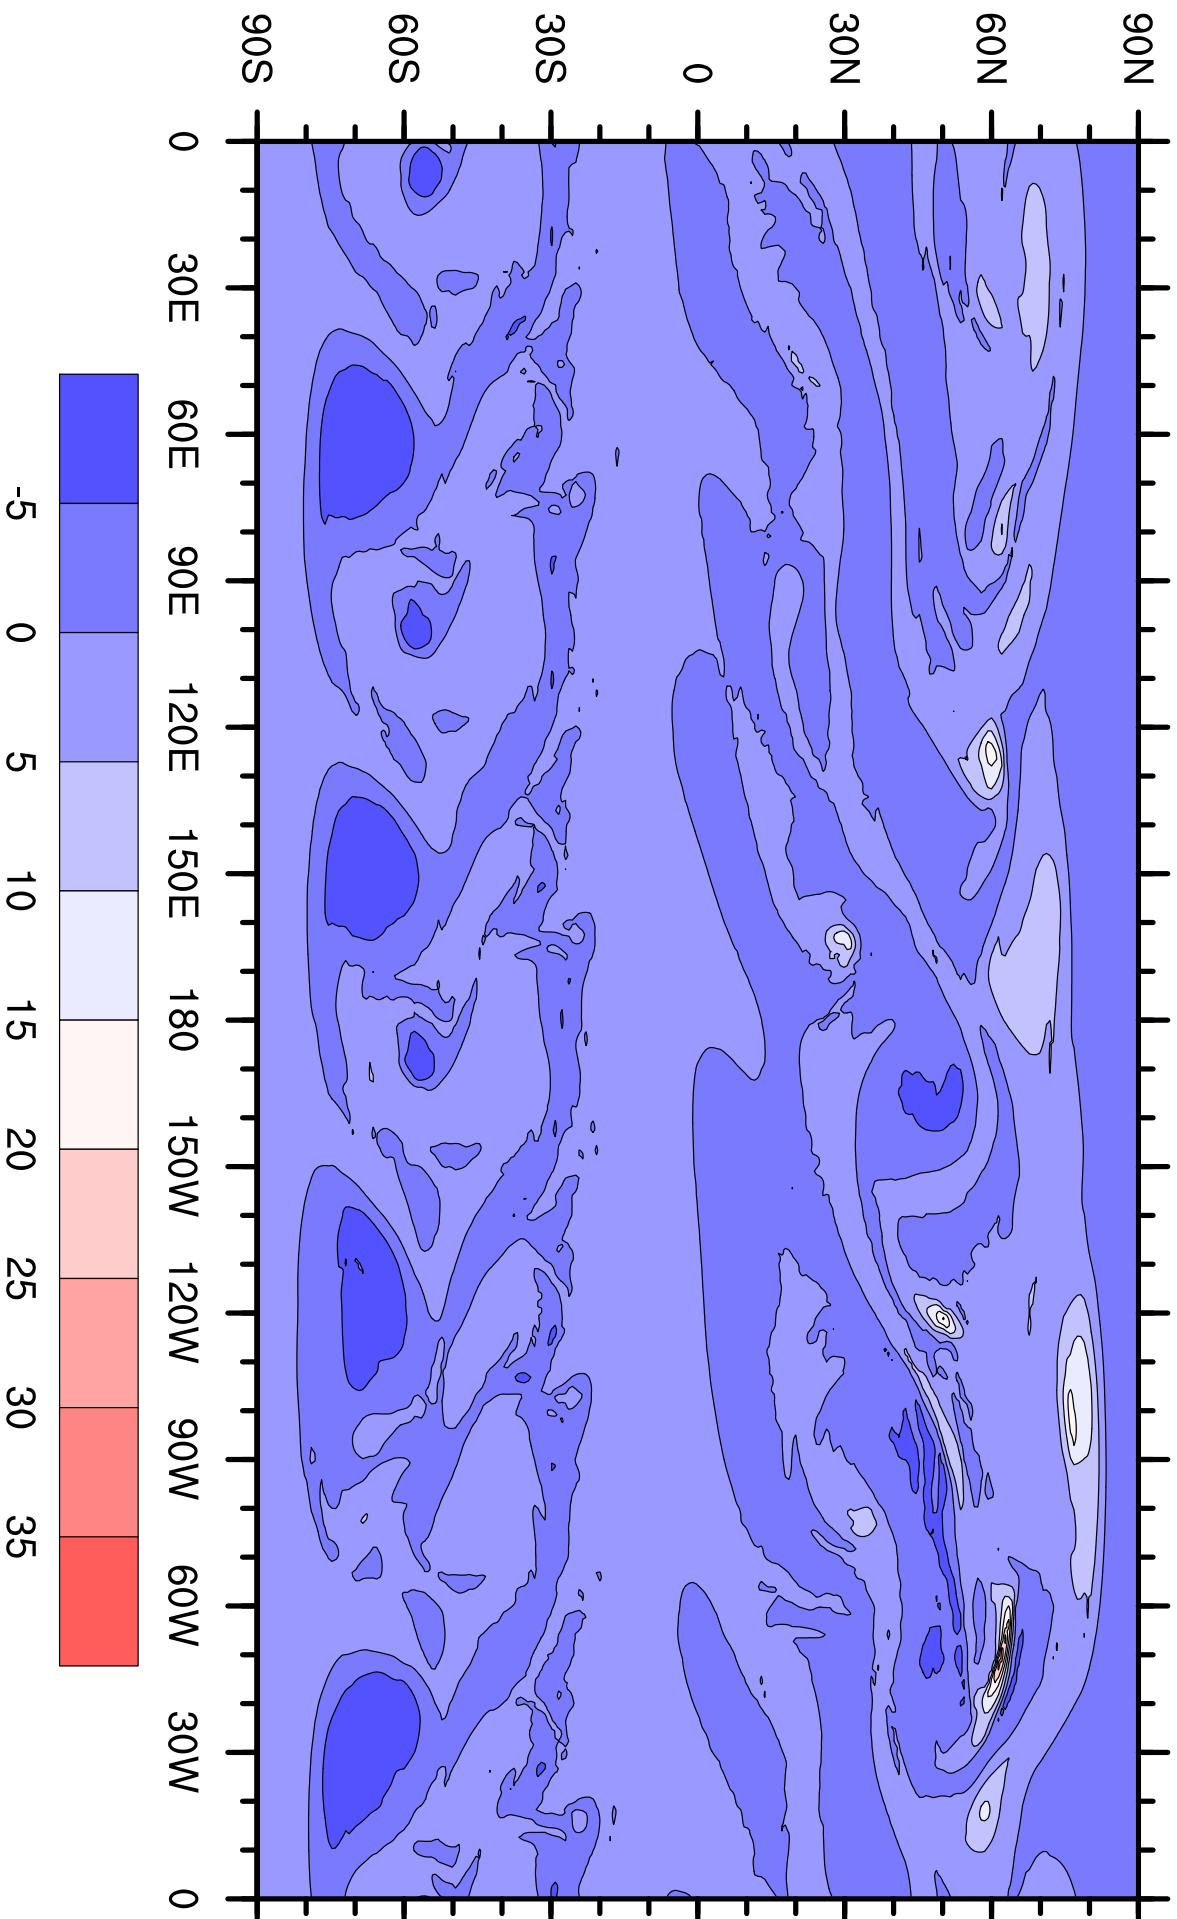

HOMME DG 0.90° (Day 15)
